TO BE

DESIGN COLLECTION 2021

ELITE TO BE brand italiano di arredamento fonda le sue radici in Friuli, terra fertile di artigiani e manifattura specializzata. Sin dai primi anni, l'azienda traccia un preciso percorso di stile legato all'uso di materiali nobili e autentici, tra cui legni pregiati e finiture metalliche ricercate, per una collezione estremamente ampia e variegata di prodotti.

Oggi la nuova direzione creativa affidata a Matteo Beraldi, pone l'attenzione sulla zona giorno della casa, mettendo in risalto prodotti, finiture e materiali rinnovati capaci di rendere unico e riconoscibile lo stile ELITE TO BE, ponendo al centro qualità e design per interpretare al meglio i nuovi stili di vita contemporanei e le tendenze abitative future in costante evoluzione.

La nuova collezione ELITE TO BE si compone di 8 categorie di prodotto: tavoli, tavolini, sedie e sgabelli, librerie e sistemi, madie e credenze, illuminazione, complementi ed una linea Exclusive all'interno della quale sono racchiusi pezzi unici ed esclusivi per materiali, finiture e dimensioni. Quest'ultima categoria nasce come speciale boutique artigianale privilegiata, dove i desideri dei clienti prendono forma.

Tutti i prodotti sono legati tra loro da un fil rouge rappresentato dall'iconicità; progetti unici dove la scelta dei materiali e la semplicità della forma coniugati sapientemente donano ad ogni elemento il giusto equilibrio di eleganza e matericità. Prodotti concepiti per rimanere nel tempo, capaci di esprimere il vero lusso di essere autenticamente se stessi.

ELITE TO BE è inoltre riconosciuta per l'offerta di prodotti d'arredo rivolti al settore dell'horeca, che si amplia e fortifica attraverso la nuova partnership strategica con Wineemotion, azienda toscana specializzata nella produzione di cantine elettroniche per vini al bicchiere.

The origin of ELITE TO BE, an Italian furniture brand, are in Friuli Venezia Giulia, a flourishing land of artisans and specialized manufacture. Since the inception, the company has set a precise path based on the use of precious and authentic materials including noble wood and refined metal finishes, for an extremely wide and assorted collection of products, to create an extremely wide and assorted collection of products.

Today the new creative direction coordinated by Matteo Beraldi, focuses on the living room area, highlighting renewed products, finishes and materials aimed to make the elite TO BE style unique and recognizable, to interpret the new contemporary lifestyles and the evolving future living trends by focusing on the quality and design.

The new elite TO BE collection consists in 8 categories, which includes: tables, occasional tables, chairs, stools, bookcases, wall systems, bar cabinet and sideboards, lighting, accessories and an Exclusive category where are grouped only unique pieces. The Exclusive category is made of unique items, made of specific materials, finishes and dimensions. This last category is created by unique artisan, a privileged boutique, where customer's desire takes shape.

All products are covered by a common thread that is represented by the iconicity, by unique projects, where the choice of materials and the simplicity of the shapes give to each element the right balance of elegance. Products designed to last, capable of expressing the true luxury of being authentically oneself.

ELITE TO BE is also recognized for the contract design furniture products aimed at the hospitality sector, which expands and strengthens through the new strategic partnership with WineEmotion, a Tuscan company specialized in the production of unique machine dedicated to the wine serving by the glass.

Materials

I materiali sono uno dei punti cardine della nuova collezione ELITE TO BE. Materiali autentici come il legno nelle sue differenti essenze, con la profondità delle sue venature ed il calore di una materia viva. Superfici metalliche estremamente eleganti e sofisticate come il nickel, il bronzo, l'ottone e il piombo nelle finiture diamantate. Piani e rivestimenti in argilla naturale dove l'increspatura e la rugosità diventano il valore aggiunto di questa esperienza sensoriale e infine la riscoperta di lavorazioni artigianali passate, come il mosaico in pietra, rivisitate in chiave moderna e capaci di creare pezzi unici e inimitabili.

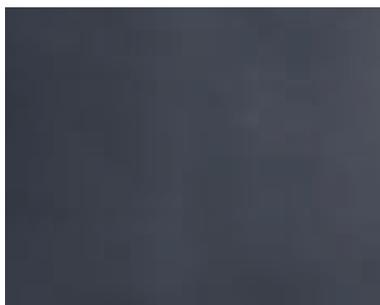

The materials are one of the key points of the new ELITE TO BE collection. Authentic materials such as wood in its different essences, with the depth of its grains and the warmth of an alive material. Metallic surfaces extremely elegant and sophisticated like nickel, bronze, brass and lead in the diamond finishes. Tops and coverings in natural clay where the rippling and roughness become the added value of this sensory experience and finally the rediscovery of the old, like stone mosaic, redesigned in a modern way and able to create unique and inimitable pieces.
