TO BE

HORECA COLLECTION 2018

**Horeca 2018**

Il vino non si beve soltanto, si annusa,  
si osserva, si gusta, si sorseggia e...se ne parla

You dont just drink wine, you smell it, you taste it,  
you sip it and ....we can talk about it !

(Edoardo VII 1841-1910)

La vita è troppo breve per bere vini mediocri

— —  
Life is too short to drink average wines.

(Johann Wolfgang von Goethe 1749 – 1832)

ELITE TO BE affonda dal principio le sue radici nel mondo del vino e dell'hospitality progettando la Libreria del Vino, espositore per bottiglie a parete divenuto nel tempo un vero e proprio prodotto icona per il brand. L'idea alla base delle Libreria è da subito quella di disegnare una famiglia intera di oggetti pensati per svolgere una funziona specifica : arredare enoteche, bottiglierie, bar, negozi, ristoranti, ambienti dedicati al vino nelle sue più diverse declinazioni. Lo sviluppo della linea passa dalla "Libreria del Vino" e si espande nel "WIN-O", portabottiglie con sistema di bloccaggio della bottiglia, per rafforzarsi anno dopo anno con nuovi prodotti.

— —  
ELITE TO BE sinks its roots in the world of wine and hospitality by designing the Wine Library, a wall display stand that has become a real icon product for the brand over time.

The idea behind the Library is immediately to draw a whole family of objects designed to perform a specific function: furnishing wine shops, bars, shops, restaurants, environments dedicated to wine in its most diverse forms.

The development of the line passes from the "Wine Library" and expands into the "WIN-O", bottle holder with bottle locking system, to strengthen itself year after year with new products.

Nel tempo ha realizzato soluzioni diverse, assistendo i progettisti nelle loro scelte, lavorando con soluzioni sempre più “su misura” e riuscendo così ad affermare il proprio stile.

ELITE TO BE non offre solo un prodotto di serie, ma articoli che si possono produrre in base alle esigenze progettuali e alla sempre crescente necessità di personalizzazione del proprio ambiente.

Questo costante impegno ci ha portati oggi a presentare nuovi arredi costruiti appositamente per il contenimento delle macchine prodotte da Wineemotion per l'erogazione del vino a calice.

Nasce così MODULO, parete attrezzata compatibile con tutti gli elementi della Libreria del Vino e con il sistema di espositori WIN-O, oltre a CONVIVIUM, mobile bar attrezzato con espositore e una macchina wine dispenser (Wineemotion) e un sistema di contenimento raffrescato per le vivande.

La Libreria del Vino e WIN-O sono prodotti brevettati.

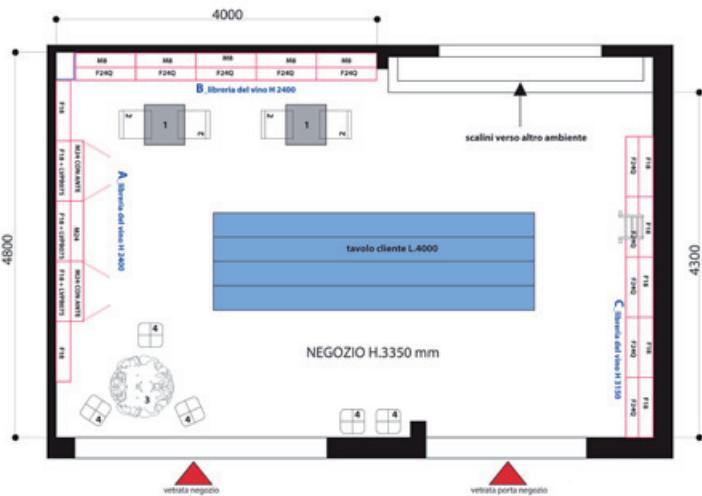

Over time he has created different solutions, assisting the designers in their choices, working with increasingly “tailor-made” solutions and thus succeeding in asserting their own style.

ELITE TO BE offers not only a standard product, but items that can be manufactured according to the design requirements and the ever-increasing need for style personalization.

This constant commitment has led us to present a product built specifically for the containment of the wine dispenser machines made by Wineemotion.

Thus MODULO, a wall system, was born, compatible with all the elements of the Wine Library and with WIN-O, as well as CONVIVIUM, a bar unit equipped with bottle display including a wine dispenser machine (Wineemotion) with a cooling containment system for food.

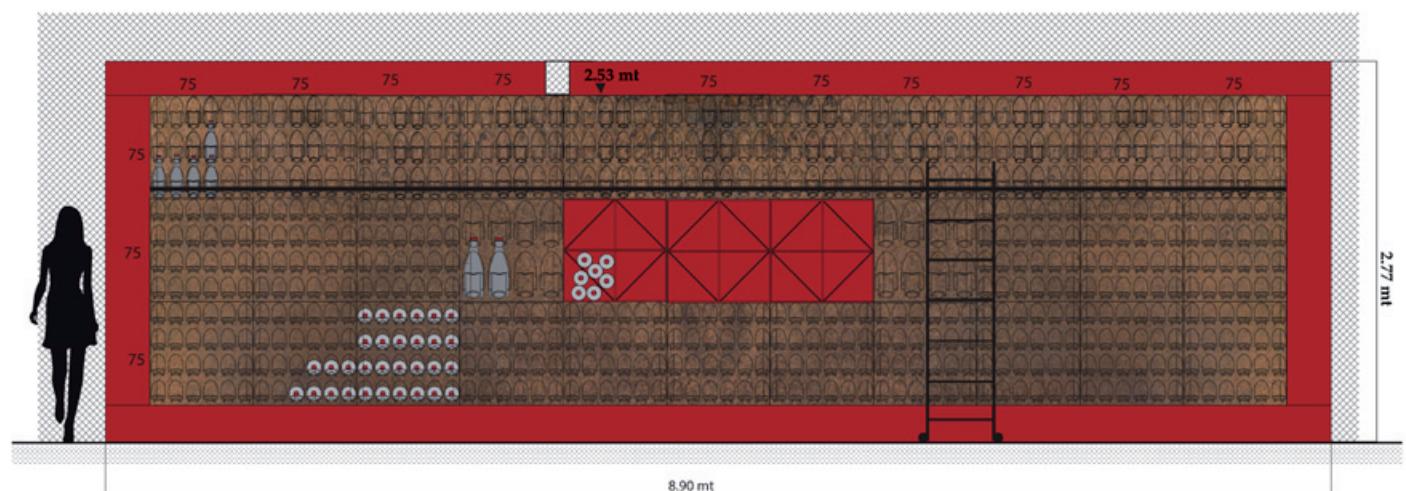

The Libreria del Vino and WIN-O are patented products.

La progettazione dei moduli avviene utilizzando elementi di standard e su misura. In questo caso la parete è stata completata con l'integrazione di moduli F18 e moduli M24 circondati da una cornice in legno.

The modules are designed using standard and customized elements. In this case the wall was completed with the integration of F18 modules and M24 modules surrounded by a wooden frame.

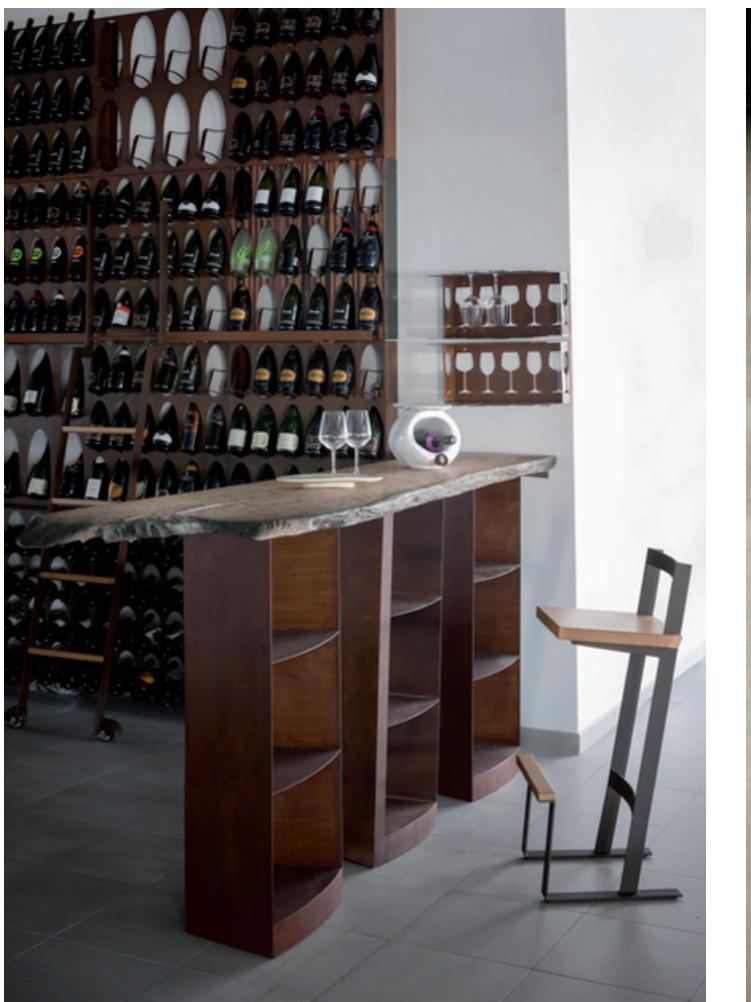

Espressione di una modularità senza limiti, la Libreria del Vino consente di attrezzare pareti di varie dimensioni, dalle pareti di grandi cantine, ai bar, ai ristoranti, o alle pareti di casa.

—  
Expression of a modularity without limits, the Wine Library allows you to equip walls of various sizes, from the walls of large cellars, to bars, to restaurants, or to the walls of your home.

Accessori in legno e in metallo, tavolini con il piano in ceramica, sgabelli, completano e si integrano con la “libreria del vino” per definire uno stile del tuo spazio.

—  
Wooden and metal accessories, small tables with ceramic top, stools, complete and integrate with the “wine library” to define the style of your space.

#### GOBLET

\_Lampadario a sospensione o a parete, in lamiera taglio laser con finiture metalliche abbinabili agli arredi  
\_Pendant chandelier, or wall mounted, in laser-cut sheet metal with finishes that be matched to furniture

#### TRIS

\_Il set tavolo TRIS è composto da tre tavoli da caffè di diverso diametro, realizzati in acciaio tagliato al laser, rifiniti con finiture in metallo coordinate  
\_The TRIS table set consists of three coffee tables of different diameters, made of laser-cut steel, finished with coordinated metal finishes

#### SERENA

\_Sedia in ferro battuto a mano con finiture metalliche adatte anche per uso esterno  
\_Wrought iron chair with metal finishes also suitable for outdoor use

**MODULO**

\_Poliedrica e versatile, MODULO è adatta all'arredo di ambienti pubblici.  
Enoteche, gastronomie, bar, e ristoranti acquistano stile, carattere e praticità.  
Un elegante organizzazione degli spazi che esalta l'esposizione dei prodotti

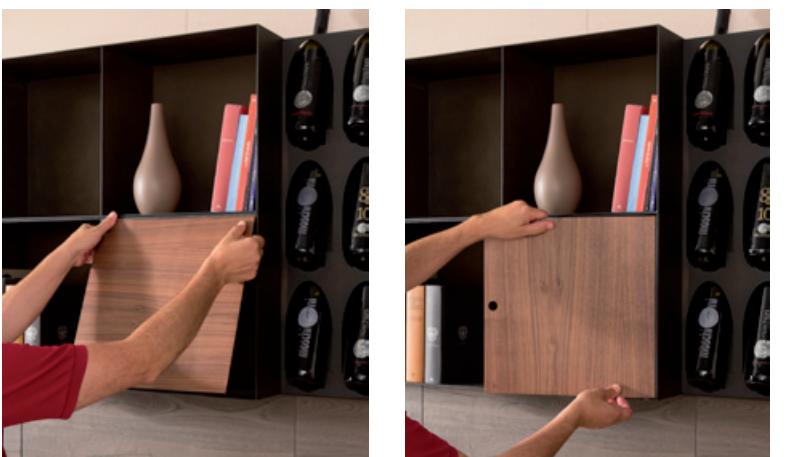

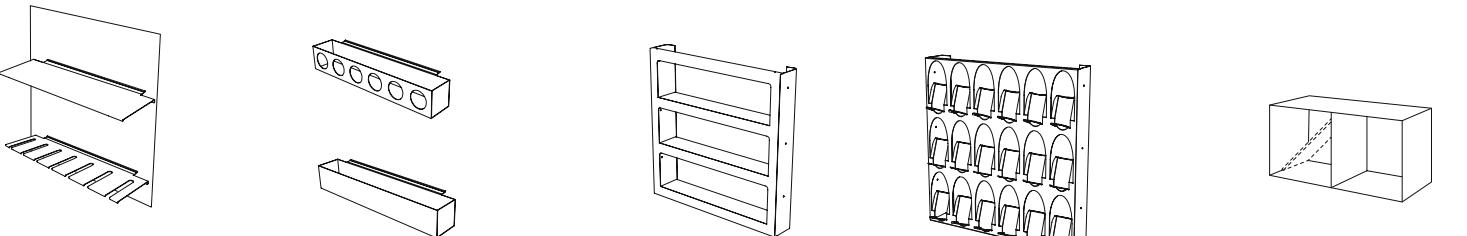

\_Multifaceted and versatile, MODULO is suitable for furnishing public spaces.  
Wine bars, delicatessens, bars, and restaurants to improve the style, character and convenience.  
An elegant organization of spaces that enhances product's display

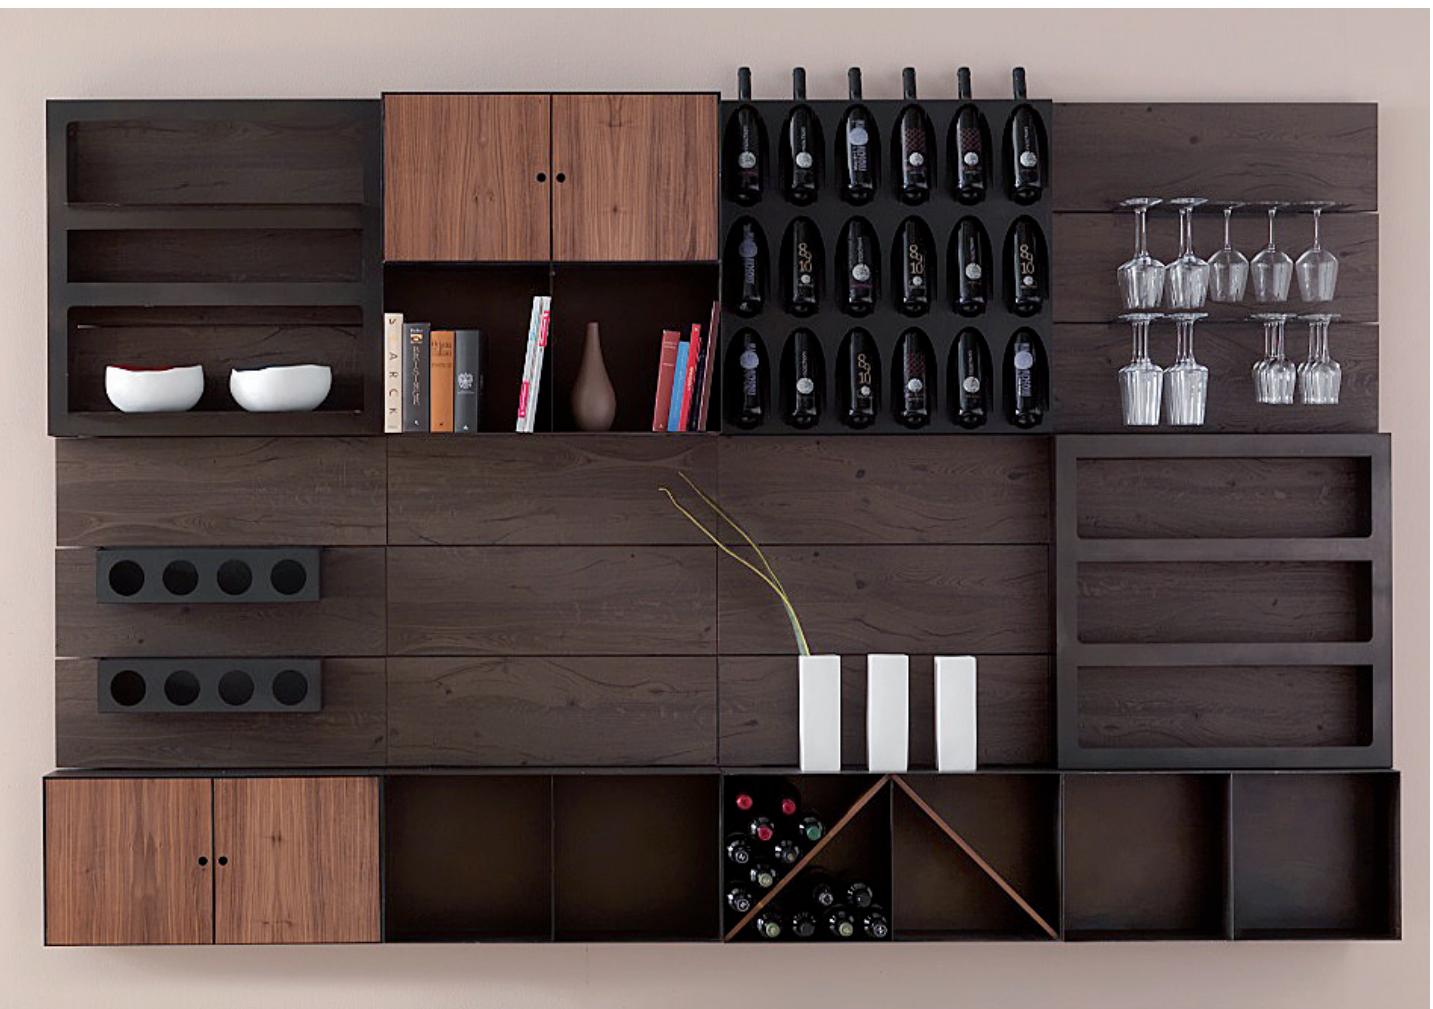

**MODULO**\_Sistema a parte pensato per integrarsi con la Libreria del Vino, offre soluzioni in sintonia con lo stile contemporaneo adattandosi alla necessità determinate dai cambiamenti delle esigenze. Sistema semplice, con pannelli e accessori rimovibili, che permettono la sua riconfigurazione nel tempo in modo estremamente facile.

**MODULO**\_Wall system thought to integrate with the Wine Library, offers solutions in harmony with the contemporary style by adapting to the use determined by changes of your needs .

Simple system, with removable panels and accessories, which allow its reconfiguration over time in an extremely easy way.

**Ante Orientabili**\_Liberi di decidere se avere un vano chiuso o aperto, o con apertura a ribalta o anta normale. Grazie ad un sistema unico di costruzione le ante possono essere inserite nei nostri moduli, in orizzontale oppure in verticale  
**Ajustable Doors**\_Free to decide whether to have a closed or open compartment, or with a flap opening or normal leaf. Thanks to a unique system of construction, the doors can be inserted into our modules, horizontally or vertically

HORECA COLLECTION

**M24**

\_Contentore di metallo taglio laser, sovrapponibile oppure pensile, attrezzabile con divisorio in legno per lo stivaggio delle bottiglie in orizzontale. Adatto all'integrazione con il sistema a parete MODULO o con la Libreria del Vino

\_Metal container laser cut, stackable or hanging, can be equipped with wooden divider for stowage of bottles horizontally. Suitable for integration with the MODULO wall system or with the Wine Library

**TULI**

\_Lampada in sospensione  
in filo di ferro intrecciato  
e verniciato in varie finiture  
\_Suspension lamp in braided  
and painted iron wire  
in various finishes

**WIN-O**

\_Sistema di esposizione  
delle bottiglie, con un  
dispositivo di bloccaggio unico.  
Molto adatto per la sicurezza  
e per applicazioni speciali  
nel mondo marittimo  
\_Bottle exposure system,  
with a unique locking device.  
Very suitable for safety  
and to special application  
on maritime world

Porta bottiglie pratico, intelligente, funzionale, diventa  
un sobrio complemento e un utile contenitore per esporre  
e conservare le vostre migliori bottiglie.

Bottle holder practical, intelligent, functional, becomes  
a sober complement and a useful container to display  
and store your best bottles.

#### CONVIVIUM

\_Un mobile bar rivoluzionario pensato per la mescita del vino a calice con l'utilizzo del wine dispenser di Wineemotion, oltre alla conservazione delle bottiglie, e dei cibi nel cassetto raffrescato. Adatto all'utilizzo negli alberghi, ristoranti e spazi pubblici

\_A revolutionary bar cabinet, designed for the serving of wine by the glass using the wine dispenser from Wineemotion, in addition to the storage of bottles, and the foods in the cooled drawer. Suitable for use in hotels, restaurants and public spaces

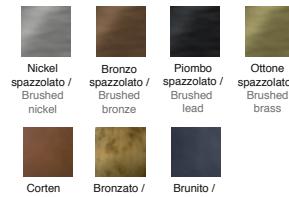

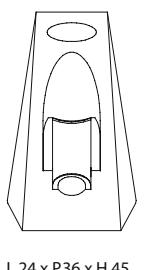

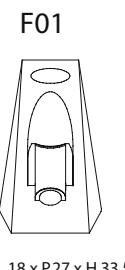

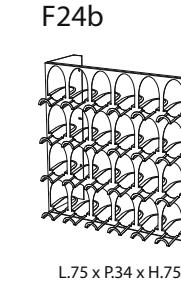

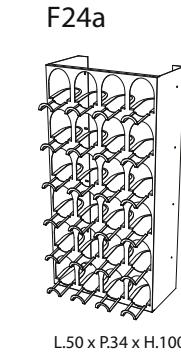

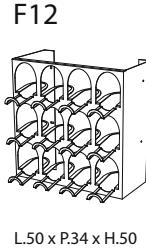

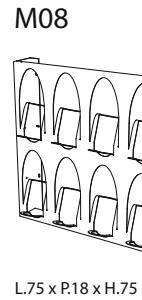

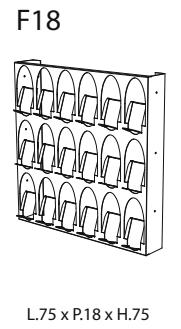

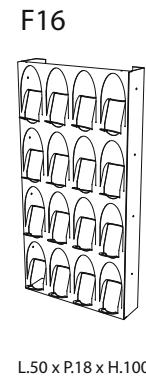

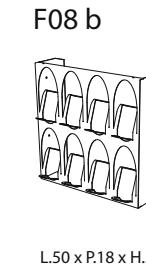

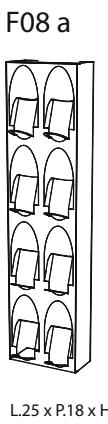

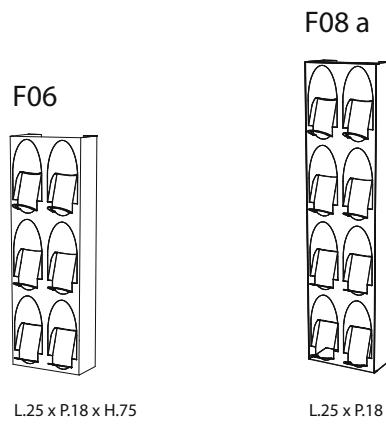

Il nuovo modello di dispenser, Quattro, è una macchina ad alto contenuto tecnologico caratterizzata da una particolare semplicità di uso ed installazione con l'integrazione a bordo della bombola argon per renderla una semplice ed efficace sistema plug&play particolarmente efficiente il nuovo sportello con vetro termico ad apertura laterale.

The new dispenser model, Quattro, is a high-tech machine characterized by a particular simplicity of use with the installation on board of the argon tank to make it a simple and effective plug & play system. Particularly efficient is the new thermal glass door with lateral opening.

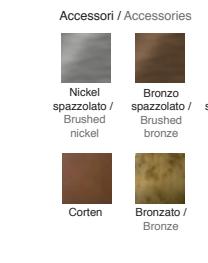

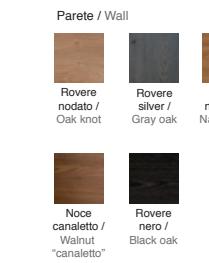

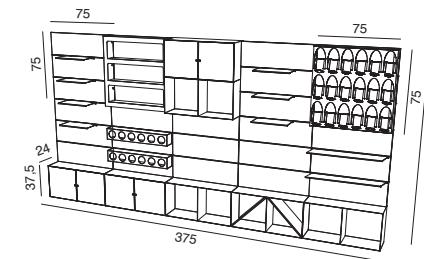

\_Pratici cassetti metallici  
estraibili per i bicchieri  
\_Practical metal drawers  
for glasses

# Materiali

—  
Materials

I materiali sono uno dei punti cardine della nuova collezione ELITE TO BE. Materiali autentici come il legno nelle sue differenti essenze, con la profondità delle sue venature ed il calore di una materia viva. Superfici metalliche estremamente eleganti e sofisticate come il nichel, il bronzo, l'ottone e il piombo, nelle versioni opaca o spazzolata. Piani e rivestimenti in argilla naturale dove l'increspatura e la rugosità diventano il valore aggiunto di questa esperienza sensoriale e infine la riscoperta di lavorazioni artigianali passate, come il mosaico in pietra, rivisitate in chiave moderna e capaci di creare pezzi unici e inimitabili.

—

The materials are one of the key points of the new ELITE TO BE collection. Authentic materials such as wood in its different essences, with depth of its veins and the warmth of a living matter. Metallic surfaces extremely elegant and sophisticated like nickel, bronze, brass and lead, in matt or brushed versions. Tops and coverings in natural clay where the rippling and roughness become the added value of this sensory experience and finally the rediscovery of artisanal manufacturing of the past, like stone mosaic, revisited in a modern way and able to create unique and inimitable pieces.
